MAKE EMBEDDED VEHICLE DATA YOUR COMPETITIVE ADVANTAGE

- ✔ Intelligent Real-time Data
- ✘ No Sourcing Headaches
- ✘ No Additional Hardware
- ✔ Quick Onboarding
- ✘ No CapEx

Introducing **FLEETCONNECT™**

Future ready fleet solutions start with data-driven insights on optimizing fleet operations, and the intelligence to make the shift to greener, electric fleets. Fleet connect by CerebrumX is a toolkit specially designed to optimize their Total Cost of Ownership (TCO) with AI-trained model over millions of trips, that provides an exhaustive coverage of cost factors

Fuel Consumed

Cost per gallon, mileage, cost per mile, fuel consumed

Depreciation And Maintenance Costs

Vehicle price, Repairs, operating costs and obsolescence

Other Costs

Vehicle price, Repairs, operating costs and obsolescence

Streaming Telemetry

Driver Behavior

Service Warnings

Vehicle Health

Collision

EV Fleet
